

broadcast networks when the fin/syn rules were adopted.<sup>1359</sup>

650 Although CPD and WGA appear to be correct that fewer of the programs in the Networks' prime-time lineup are produced by independent producers than at times in the past, the evidence in the record does not address whether the decline in the number of independently-produced programs is attributable to changes in the regulatory environment (*i.e.*, the elimination of the fin/syn rules) or to other changes that have taken place in the media business in the intervening years that have increased the risk of producing prime time programming.<sup>1360</sup>

651 Moreover, the reduction in independently produced prime time programming on a small subset of television networks is not, by itself, a public interest harm. Our concern is to promote the interests of consumers and viewers, not to protect the financial interests of independent producers. The record does not demonstrate that consumers and viewers are harmed as a result of network financial interests in the programming they carry, particularly in light of the quantity and variety of media outlets for programming in today's media marketplace.

652. In particular, the record does not convince us that an "access" rule for independent producers will advance viewpoint diversity. CPD's argument, for example, is premised on the notion that the Networks are gatekeepers,<sup>1361</sup> if they are not, there are other outlets for independently-produced fare and no basis to impose fin/syn restrictions. To the extent that the Networks actually are gatekeepers, however, fin/syn rules cannot logically advance viewpoint diversity because the Networks, as gatekeepers, can filter messages at the distribution stage just as they can at the production stage. Adopting the Fin/Syn Proposals, therefore, is not likely to promote viewpoint diversity.

653 Even if we were to adopt a broader definition of "diversity" to include general entertainment programming,<sup>1362</sup> a gatekeeper at distribution still may filter unwanted programming whether or not the programming is produced in-house. For example, if a network were to decide that its prime time lineup should consist only of "reality programming," or that it should target a particular audience demographic, there is no reason to believe that it could not give effect to those plans with independently-produced programming as easily as it could with programming produced by itself or an affiliated company – it simply would make known its programming intent and allow independent producers to fill the void. The Fin/Syn Proposals, therefore, cannot be justified on grounds of programming diversity.

The Commission previously has questioned whether changes in the mix of programming on the prime time lineup can be attributed to regulatory changes or to business considerations. *See Review of the Syndication and Financial Interest Rules*, 10 FCC Rcd 12165 ¶ 20 (1995).

<sup>1361</sup> Ex Parte Filing of CPD (May 15, 2003) at 2.

<sup>1362</sup> Although CPD premised its proposal on the goals of promoting both source diversity and program diversity, its main arguments appear to be premised on a program diversity rationale. *See, e.g.*, CPD Reply Comments at 20 (arguing that its proposal would "substantially increase the possibility that more diverse genres of programming will emerge"). As discussed above, our core interest in this proceeding is in protecting viewpoint diversity; we generally rely upon market forces to deliver programming that will appeal to viewers.

654. Both CPD and WGA also fail to justify their definitions of the relevant market for purposes of their proposals. CPD, for example, has targeted its proposal only at the four major broadcast networks, and only at their prime time schedule. However, aside from conclusory allegations that “the prime time television programming marketplace is a narrow, unique market,”<sup>1363</sup> CPD has provided no reason to exclude other video programming outlets and other day-times, were we inclined to adopt a fin/syn-like rule. Viewers today have more programming choices available to them over-the-air, through cable, satellite, or home video, than ever before.<sup>1364</sup> Indeed, WGA considers a much larger market for these purposes (although it, too, provides little in the way of support for its market definition), and other commenters have suggested that non-prime time broadcast hours should be included in any analysis relating to programming diversity.<sup>1365</sup> Lacking the foundation of a sustainable market definition, the Fin/Syn Proposals cannot stand.<sup>1366</sup>

655. Finally, to the extent that the Fin/Syn Proposals are based on an assertion that the quality of independently-produced entertainment programming is superior to that of the Networks,<sup>1367</sup> we find the record devoid of evidence to that effect.<sup>1368</sup> We have no means or methodology to measure the quality of entertainment programming, and were we to favor one type or genre of programming over another, we would run squarely into the teeth of the First Amendment.<sup>1369</sup> It is up to consumers and viewers to determine what programming they want to watch, and networks, as they compete for viewers, must be responsive to those demands. It is not for this agency to intervene in the decisions that determine the content of programming (absent obscenity or indecency concerns).

656. When the Seventh Circuit affirmed the Commission’s decision repealing all of the fin/syn rules, it questioned whether the rules “ever had much basis” and cautioned that, if the Commission ever decided to re-impose similar restrictions, “it had better have an excellent, a compelling reason” to do so.<sup>1370</sup> None appears on this record. Accordingly, we reject the Fin/Syn Proposals.<sup>1371</sup>

## IX. NOTICE OF PROPOSED RULEMAKING

657. In the Local Radio Section of this *Order*, we replaced our current contour-overlap methodology for defining radio markets with a geography-based market definition. For areas of the country covered by Arbitron Metro markets, we adopted the Metro market as the relevant radio market for purposes of determining compliance with the local radio ownership rule. A significant portion of the country, however, is not covered by Metro markets. We initiate this rulemaking proceeding to define radio markets for those areas.

658. We seek comment on how to draw specific market boundaries in areas of the country not located in Arbitron Metros. What factors should we consider in grouping radio stations into markets? We propose that radio markets be county-based, as Arbitron Metros are. We seek comment on that proposal. In the western United States, counties are significantly larger. We seek comment on whether we should, like Arbitron, divide counties into separate radio markets in certain circumstances. We also propose that radio stations be assigned to radio markets based on the location of their communities of license. We seek comment on this proposal.

659. We seek comment on whether we should rely on any pre-existing market definitions in delineating radio markets for non-Metro areas. As indicated in the Local Radio Section, Arbitron traditionally has based its Metro definitions on the Metropolitan Area (MA) definitions developed by OMB. Should we also do the same for non-Metro areas? OMB recently released new MA definitions based on the results of the 2000 Census.<sup>1372</sup> The 935 new MAs, moreover, cover a greater portion of the country. Previously, MAs were defined only for urban areas with a population of 50,000.<sup>1373</sup> The new MA definitions cover areas with a population of 10,000 to 50,000 (known as Micropolitan Statistical Areas), which should greatly increase the number of radio stations located in MAs.<sup>1374</sup> If we rely on MAs, how should we address future changes to MA definitions, and the creation of a new, or the deletion of an existing, MA?<sup>1375</sup> In addition, even with the expanded reach of the new MAs, there will be areas that they do not cover. How should the radio market be defined in those areas if MAs are used? One possible method is to establish geographic markets based on the location, distribution, and density of populated areas.<sup>1376</sup> Because population clusters are likely to indicate areas of economic and social interaction, the location and distribution of the centers of population should give us a reasonable indicator of the boundaries of the relevant geographic market in which radio stations compete. Because the

(Continued from previous page)

<sup>1371</sup> Aside from the reasons enumerated above, we reject WGA's proposal because it is far from clear that the Commission has jurisdiction over the programming carried on cable networks.

<sup>1372</sup> See OMB Bulletin No. 03-04, <http://www.whitehouse.gov/omb/omb/bulletins/b03-04.html>. In 2000, OMB revised its procedures for defining MAs. In addition, it adopted the more generic term Core Based Statistical Area (CBSA) to cover both traditional Metropolitan Areas and the new Micropolitan Statistical Areas. See generally Standards for Defining Metropolitan and Micropolitan Statistical Areas, 65 Fed. Reg. 82228 (2000). Although less accurate, we will use former term – i.e., MAs – to avoid confusion.

<sup>1373</sup> See U.S. Census Bureau, Cartographic Boundary Files, [http://www.census.gov/geo/www/cob/ma\\_metadata.html](http://www.census.gov/geo/www/cob/ma_metadata.html) (visited May 30, 2003).

<sup>1374</sup> See 65 Fed. Reg. at 82236-37 for a detailed description of the standards OMB uses to define MAs.

<sup>1375</sup> See *id.* at 82237 for the rules governing future updates to MAs.

<sup>1376</sup> Population data is available over the Internet from the Census Bureau.

geographic areas involved generally will be low-density and rural areas of the country, moreover, we believe that population data could provide a fairly reliable and easily determinable market definition. We seek comment on this and any other methods

660 Another possibility is to treat Cellular Market Areas (CMAs) as the relevant geographic market for radio. CMAs were developed in the mid-1980s to be the geographic basis for licensing cellular spectrum. CMAs consist of MAs (as they were defined after the 1980 census) and Rural Service Areas (RSAs),<sup>1377</sup> which the Commission delineated for areas of the country not located in MAs.<sup>1378</sup> Although CMAs were not developed in the context of radio broadcasting, they were designed to follow “natural social and economic communities” through “multi-county groupings drawn along . . . county boundaries.”<sup>1379</sup> Are CMAs a reasonable proxy for radio markets in non-Metro areas of the country? We seek comment on this issue.

661. For any market definition we establish, how should we address situations in which that market overlaps an Arbitron Metro. If we use MAs or CMAs, there will be existing areas of overlap. Even if we define radio markets around existing Arbitron Metros, Metro boundaries may change, or Arbitron may create or delete a Metro. We seek comment on how to address the possibility of a market overlap (or in the case of a deleted Metro, the possibility of an undefined market).

662 The goal of this rulemaking proceeding is to generate a map or a list of markets for radio stations across the entire country, using Arbitron Metros where available and a Commission-endorsed market definition everywhere else. We therefore encourage parties to use this opportunity to submit specific information that would assist in properly delineating the boundaries of the local radio markets in which they are interested.

663 *Comments and Reply Comments* Pursuant to applicable procedures set forth in sections 1.415 and 1.419 of the Commission's rules,<sup>1380</sup> interested parties may file comments on the notice of proposed rulemaking on or before 30 days after date of publication in the *Federal Register*, and reply comments on or before 45 days after date of publication in the *Federal Register*. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. See *Electronic Filing of Documents in Rulemaking Proceedings*, 63 Fed. Reg. 24121 (1998).

664. Comments filed through the ECFS can be sent as an electronic file via the Internet to <<http://www.fcc.gov/e-file/ecfs.html>>. Generally, only one copy of an electronic submission must be filed. In completing the transmittal screen, commenters should include their full name, U.S. Postal Service mailing address, and the applicable docket, which in this instance is MB Docket No. 03-130. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions for e-mail comments, commenters should send an e-mail to [ecfs@fcc.gov](mailto:ecfs@fcc.gov), and should include the following words in the body of the message, “get form <your e-mail address>.” A sample form and directions will be sent in reply. #### **XI. ORDERING CLAUSES**

674 Accordingly, IT IS ORDERED that, pursuant to the authority contained in sections 1, 2(a), 4(i), 303, 307, 309, and 310 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 152(a), 154(i), 303, 307, 309, and 310 and section 202(h) of the Telecommunications Act of 1996, this *Report and Order* in MB Docket No. 02-277 and MM Docket Nos. 01-235, 01-317, and 00-244 IS ADOPTED.

675 IT IS FURTHER ORDERED that Part 73 of the Commission's Rules IS AMENDED as indicated in Appendix H.

676 IT IS FURTHER ORDERED that the Interim Policy set forth herein IS ADOPTED.

677. IT IS FURTHER ORDERED that the Motion for Revision of Procedural Dates, Expansion of the Scope of the Proceeding, and Inclusion of Additional Studies in the Record, filed on October 9, 2002 by Minority Media and Telecommunications Council and National Association of Black Owned Broadcasters, is DENIED in part and GRANTED in part to the extent described herein; the Motion to Bifurcate and Repeal, filed on March 11, 2003 by Media General, Inc., IS DISMISSED; and the Motion to Postpone, filed on May 31, 2003 by the Diversity and Competition Supporters, et al., IS DENIED.

678. IT IS FURTHER ORDERED, pursuant to the authority contained in sections 1, 2(a), 4(i), 303, 307, 309, and 310 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 152(a), 154(i), 303, 307, 309, and 310 and section 202(h) of the Telecommunications Act of 1996, that the ownership requirements and rules adopted in this *Report and Order* SHALL BECOME EFFECTIVE thirty (30) days after publication of the text or summary thereof in the Federal Register, except for those rules and requirements involving Paperwork Reduction Act burdens, which SHALL BECOME EFFECTIVE immediately upon announcement in the Federal Register of OMB approval.

679. This action is taken pursuant to the authority contained in sections 1, 2(a), 4(i), 303, 307, 309, and 310 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 152(a), 154(i), 303, 307, 309, and 310 and section 202(h) of the Telecommunications Act of 1996. If any section, subsection, paragraph, sentence, clause or phrase of this *Report and Order* or the rules adopted herein is declared invalid for any reason, the remaining portions of this *Report and Order* and the rules adopted herein
